

We are delighted to introduce the inaugural expertwine.com "hotlist" of our 100 Best Australian Wines - the essential wines to track down in 2004. It is not intended to be a list of blockbuster Shiraz and mega-expensive cult classics, but rather a buyer's guide for restaurants, private clients and keen wine drinkers alike. We started off with several thousand wines, and whittled it down through exhaustive tasting, in both the UK and Australia over the last 12 months, to the one hundred you see here that made the very top grade.

From two of the most quality obsessed men in Aus, this is, not surprisingly, a mesmerising study of Riesling's finer nuances and its intricate layers of fruit - enchanting.
